

## Editor's Note

This issue includes two selected papers presented in the IV Conference on Cloud Computing & Big Data (Spanish initials: JCC&BD 2016):

- *“Using AWS EC2 as Test-Bed infrastructure in the I/O system configuration for HPC applications”*
- *“Data stream treatment using sliding windows with MapReduce”*

Also three articles related to Data Security, Intelligent Systems and Computer Science Education:

- *“Probability References to Apply in the Detection of Anomalous Public Key Infrastructures”*
- *“A Many-objective Ant Colony Optimization applied to the Traveling Salesman Problem”*
- *“Teaching Concurrency and Parallelism Concepts with CMRE”*

21 different authors from 6 different Universities of Argentina, Brazil, Paraguay and Spain are involved.

Besides, this issue includes 2 Ph.D thesis overviews:

- *“Scientific Software: Legacy Software Maintenance”*
- *“Performance and energy efficiency evaluation of heterogeneous systems for bioinformatics”*

and information of the 19th Workshop of Computer Science Researchers 2017 (Spanish initials: WICC 2017), the 5th Conference of Cloud Computing and Big Data (Spanish initialsL JCC&BD 2017) and the 23th Argentine Congress of Computer Science 2017 (Spanish initials CACIC 2017).

Presenting this issue to the readership, we specially thank the members of the Editorial staff, the authors and reviewers and, also, the Universities that collaborated with the Journal of Computer Science and Technology.

**Armando De Giusti, Engineer.  
JCS&T Editor.**
