

Editor's Note

Vol. 22 – No. 2

October 2022

This issue presents seven papers related to a wide set of topics: software engineering, information retrieval, serious games, machine learning, image processing, cryptography, and traffic routing. A total of 27 different authors from 9 different Universities of Argentina, Ecuador, Indonesia, Italy, Malaysia, and Spain were involved. Besides, this issue also includes one Ph.D. thesis overview.

Presenting this issue to the readership, we especially thank the members of the Editorial staff, the authors, reviewers, and also, the Universities that collaborated with this edition.
