

Editor's Note

Vol. 21 – No. 1

April 2021

First, we are proud to announce that JCS&T has been included in Publicly Available Content Database from ProQuest. This multidisciplinary database brings together links to full text for publicly available scholarly content from a number of different sources from around the world, all of which are open access or license-free.

This issue presents seven papers related to data science and engineering, text mining, deep learning, business process management, and medical instrumentation. 23 different authors from 14 different Universities of Argentina, Australia, France, Mexico, Turkey, and Venezuela were involved.

Besides, this issue also includes one Ph.D. thesis overview and information about the 9th Conference of Cloud Computing, Big Data & Emerging Topics (Spanish initials JCC-BD&ET 2021).

Presenting this issue to the readership, we especially thank the members of the Editorial staff, the authors, reviewers and also, the Universities that collaborated with this edition.
